

irinox

The new experience of freshness

Pioneer. Visionary. Trendsetter. Since 1989.

Irinox is **The Freshness Company**, where everything takes place respecting the freshness and quality of food. Continuous innovation, the steadfast commitment to producing durable and high-performing products, uncompromisingly choosing the best materials have been our guiding values since the very beginning.

We believe that the future requires attention, responsibility and care: only in this way is it possible to promote an increasingly sustainable lifestyle. Thanks to Irinox Home Collection, we significantly reduce food waste, contributing to the protection of the planet. A concrete gesture, every day.

Our roots are set in a region that values quality and the natural and cultural resources that surround us: a heritage that we continue to honour with passion.

With Irinox Home Collection, the kitchen turns into a space devoted to health and well-being.

Our story: from professional excellence to your kitchen.

1989

Irinox is born, with the first professional blast chillers for confectionery and catering.

2002

Innovation enters the home. Freddy, the first household blast chiller in the world, is born.

2005

From vision to reality: Irinox Home Collection, a range of innovative household appliances, sees the light.

2011

Fresco[®], the first freestanding compact blast chiller, is born.

2025

The evolution continues. Freddy is enriched with new features, becomes more simple and more user-friendly.

Innovation. Style. Design.

Irinox Home Collection translates the potential of professional technology into elegant and user-friendly appliances, designed to perfectly complement every kitchen.

It becomes your daily ally, capable of changing the duration of time: it preserves the authenticity of ingredients, respects personal rhythms

- and opens up endless creative possibilities.
- The kitchen turns into a space for health
- and well-being, where freshness does not know any seasons, and every preparation reaches
- the top of its expression.

Wave Hot & Cold | p. 54

Vinoteca | p. 58

6

Change the way you think about the seasons.

In an age where everything accelerates, Irinox Home has perfected the art of stopping what really matters: the authentic essence and intact taste of ingredients, collected at the best time. For the pleasure of freshness that defies the calendar. Through innovation and functional design, it has brought into the home kitchen a new dimension of time, entering into a dynamic relationship with it. Irinox Home Collection is evolution in technology and design to protect a wealth within everyone's reach: the vitamins, colours, tastes and smells of fresh food.

Freddy 60

0

Freddy, capture the moment.

Real creativity in the kitchen is choosing when. Freddy lets you go back to the exact moment when the ingredients are fresh, the dishes are just cooked, the temperature is ideal.

It safeguards the essence of vitamins, colours and aromas until the perfect occasion. Seasonality becomes a fluid concept, without boundaries. The blast chilling technology is as gentle as a caress, enhancing the properties of each foodstuff - yet it is so fast that it stops bacterial growth.

The blast chiller is an invaluable ally, capable of tripling the shelf life of raw or cooked foods, transforming each dish into a sensorial experience that transcends the limits of time.

For those who seek the authentic and unmistakable taste of freshness, always.

ш

T - I N	MULTIFUNCTION	FREDDY
	BLAST CHILLER	

Hot freezing

irinox

Prolonging authentic flavour.

To rapidly lower the core temperature of hot and freshly cooked food down to +3 °C. In this way, it ensures the quality, flavour, colours and aromas of food, tripling their shelf life.

To store any cooked food in the fridge up to 7 days.

The ability to seize the moment.

This cycle lowers the temperature to +3 °C and then gradually drops to -18 °C: the result is rapid but non-aggressive freezing, ideal for hot or particularly delicate foods.

T - I N	MULTIFUNCTION	FREDDY
	BLAST CHILLER	

An indispensable function for the most delicate foods that must be stored in the freezer up to 6-8 months.

That moment of eternal freshness.

Cold freezing

Blast chilling makes it possible to leave the natural goodness of food unaltered, even storing it in the freezer for over 6 months, preserving flavour, texture and nutritional properties. When consumed, you will enjoy the same original freshness and quality, as if time had never passed. For preserving in the freezer up to 6-8 months.

Anticipation savoured now.

Personalized storage

Proper preservation is the secret to maintaining intact the quality of food. Specific temperatures, which are hardly reached in a household freezer or refrigerator, are essential to preserve authentic textures and flavours, even the most delicate, over time. This feature makes it possible to store any food at its ideal temperature, respecting its nature: from the freshness of a perfect tartare at 0 °C to the irresistible creaminess of artisanal ice-cream at -12 °C.

T - I N	MULTIFUNC	ΤΙΟΝ	FREDDY
	BLAST CHI	LLER	

To preserve even the most delicate food at the perfect temperature before serving it.

Heat, the versatile star of transformation.

Heat reveals the potential of preparations through Freddy's many functions.

Technology allows natural flavours to be enhanced, respecting the identity of the individual ingredients: from slow cooking that preserves juices and aromas, to the convenience of the ready-made dish that optimises time, up to controlled leavening that ensures impeccable results for bread and doughs.

Precision and versatility combine to elevate every daily preparation.

Fresco[®] Élite

irinox

Fresco[®] Élite, the technology that transforms your habits.

Fresco[®] Élite is the blast chiller that redefines your routine and your relationship with the time you spend in the kitchen. With its elegant design, it perfectly blends into your daily needs.

Fresco[®] Élite goes beyond mere functionality. It carefully preserves the essence of every ingredient: the authentic freshness, the intense flavours, the perfect consistency and the whole nutritional value.

Fresco[®] Élite is a new way of experiencing contemporary cuisine, respecting your time needs and enhancing your preparations.

Its distinctive design is eye-catching, but what makes it truly indispensable is the user experience.

Blast chilling To store any cooked food in the fridge up to 7 days.

Shock freezing For perfectly preserving in the freezer up to 6-8 months.

Delicate freezing For the most sensitive food that is stored in the freezer.

Controlled thawing For soft thawing, that does not spoil food.

Beverage cooling To be always ready when unexpected guests arrive.

Customised preservation For the preservation of special food (-20 °C / +65 °C).

Low temperature slow cooking To cook meat and fish gently enhancing their flavour.

Leavening For more digestible bread, pizza, brioche and focaccia dough.

Ready-made dish To find a hot dish when you come back home.

Zero, the hood vacuum sealer that preserves essence.

Zero is the first built-in hood vacuum sealer, derived from professional appliances, that is able to reach up to **99.9%** vacuum, to increase up to 5 times the shelf life of food.

Its control panel with soft-touch technology offers a user-friendly experience with **three levels of vacuum** and specialised cycles for **marinade**, **dry-ageing and liquids**. Zero flexibly adapts to different needs, even the most advanced, letting you create customised setups that respect the nature of every ingredient and the desired result.

Zero is equipped with a steel tank with a capacious sealing bar, that holds large bags.

With Zero it is also possible to prepare food for sousvide cooking in water, in Freddy or in steam oven. Its professional built-in technology reaches a vacuum level close to absolute zero, sealing the organoleptic properties and creating a dimension where every authentic flavour is preserved over time.

Zero is available in three models: Zero 45, Zero 36 and Zero 15.

•••

Light vacuum

To hermetically seal crush-sensitive food, such as soft cheese, sweets, salads.

•••

Storage vacuum

For vacuum sealing most foods.

...

Extreme vacuum

To vacuum pack food such as raw vegetables and cold cuts or prep for sous-vide cooking.

 \bigcirc

Dry ageing

To soften meat, which can even undergo several vacuum cycles.

 $\mathbf{\tilde{k}}$

Marinade

To enhance the flavour of food with oil and spices in 5-10 minutes instead of hours.

Liquids

To seal bags containing cold liquid products, such as soups, sauces, ragout, jam or baby food.

Wave Hot&Cold 45

RINOX

0 \odot М 0

Wave Hot&Cold, to each their own style.

Wave Hot&Cold is the household water dispenser which is connected directly to the local water mains and dispenses high-quality, hot or cold still or sparkling water, microfiltered from the first to the last drop.

Purity guaranteed by the special filter, capable of removing up to 99.9% of impurities with a diameter up to 0.5 micron, including asbestos fibre and other microorganisms in water, chlorine and algae.

Wave Hot&Cold is not just purity: it improves the taste of water and ensures every sip is naturally fresh.

The four flavours of purity

Wave Hot&Cold dispenses 4 types of microfiltered water:

Ĥ

Water at room temperature

Cold microfiltered water

Cold sparkling water

Hot water at 85 °C

Vinoteca 60 dual-temperature, where everything is under control.

The Irinox Home 60 wine cabinet is designed for true connoisseurs who love precisely controlling the ideal environment for each bottle.

Indeed, its dual temperature zone makes it possible to respect the features of both white and red wines.

The elegant "full glass" door with push open system protects the bottles from UV rays, combining aesthetics and functionality, while the LEDs in three customisable colours (orange, white, blue) create the suitable atmosphere, balancing light and shadows.

The oak wood supports offer great versatility: when properly set up, they can accommodate bottles other than the classic Bordeaux ones. An innovative feature is the option to also accommodate magnum size bottles, an essential detail for those who love collecting important bottles, because special occasions deserve the right space.

For exceptional performance with a touch of elegance.

irinox

Vinoteca 45

-

	ILI	n	
$\mathbf{\nabla}$			

Vinoteca 45 singletemperature

The 45 wine cabinet holds all the technological excellence of the larger model in a more compact size.

With a single temperature zone, adjustable from 5 °C to 20 °C, it lets you create an environment suitable for refined whites or full-bodied reds.

Furthermore, the elegant "full glass" door protects the bottles from UV rays.

Vinoteca 45 offers the following finishes and features:

- Second-generation push-open system.
- "Full glass" door.
- LED lights in three colours to choose from (orange, white, blue).
- "Hettich" hinges, also available in black.
- Adjustable oak supports, to hold bottle sizes other than Bordeaux.

Vinoteca 15 single-temperature

Vinoteca 15 can be set in a column or under a top to perfectly complement any kitchen layout.

Vinoteca 15 has a single temperature zone, adjustable from 5 °C to 20 °C via a touchpad digital display. It ensures optimal conditions thanks to dynamic compressor cooling which evenly distributes temperature and moisture.

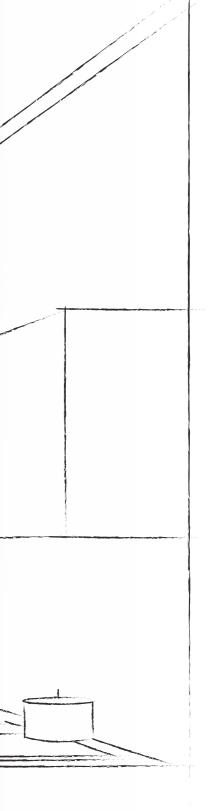

The creative freedom of a designer emerges with Irinox Home

66

Transforming the concept of kitchen into a space that reflects the unique identity of those who use it becomes an exploration of choice, taste, personality. Compositional modularity offers architects and designers a series of diversified functional elements to meet all the practical and aesthetic needs of every design challenge, and to turn desires into spaces capable of inspiring.

FEEEE

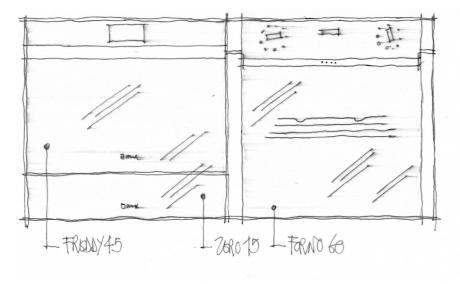

Composition ideas to combine aesthetics and functionality.

Innovation, design and technology combine into one word: experience.

Irinox Home creates solutions capable of simplifying daily life. It offers a series of versatile and modular combinations based on different needs, to inspire a new way of experiencing time in the kitchen, and prolonging freshness.

Standard equipment: Certified NSF class 1 filter (cold line) / Hot water filter. **Option:** 600 g disposable CO₂ cylinder / Rechargeable 1 kg CO₂ cylinder kit including connection pipe / Rechargeable 4 kg CO₂ cylinder kit including connection pipe.

Finishes

It is possible to customise the finish of all Wave models: brushed steel, black glass, front panels in various colours and De Castelli finishes. (See page 84)

Assembly precautions

For proper use, the purification filters and the CO_2 cylinder need to be checked. The filter (cold line) inside the appliance has a service life of 2700 litres or 1 year. The filter (hot line) has a service life of 1700 litres.

For appropriate operation of the household appliance, the filters must always be in good condition. When the filters run out, the water supply is not interrupted, but a warning signal to change the filter is emitted.

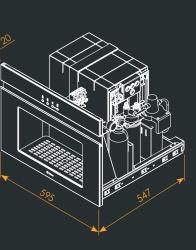

Replacement is recommended between 6 months and 1 year, according to the water hardness and the quantity of hot water dispensed.

Vinoteca

Vinoteca provides perfect storage for the most valuable wines.

The wine cabinet.

Available in 3-dimension built-in version, with black glass finish. Vinoteca 60 is equipped with 3 sliding beech shelves (2 shelves to hold Bordeaux bottles, 1 shelf to hold Magnum bottles), while Vinoteca 45 has 2 sliding beech shelves (to hold Bordeaux bottles).

The electronic control panel is set on the inside and the temperature can be read on the touchpad electronic display. Vinoteca is fitted with a second-generation push-open system and the adjustable LED lighting creates an elegant display ambiance.

TECHNICAL SPECIFICATIONS	Dual-temperature Vinoteca 60	Single-temperature Vinoteca 45	Single-temperature Vinoteca 15
Power	100 W	85 W	130 W
Voltage	220 / 240 V - 50 Hz	220 / 240 V - 50 Hz	220 / 240 V - 50 Hz
Total absorption	1.2 A	1.2 A	0.8 A
Consumption	0.27 kWh / 24 h	0.19 kWh / 24 h	0.24 kWh / 24 h
Energy efficiency class	F	E	F
Annual energy consumption	99 kWh	69 kWh	88 kWh
Net machine weight	42 kg	34 kg	19 kg
Temperature range	5 °C - 20 °C	5 °C - 20 °C	5 °C - 20 °C

Standard equipment: 3 sliding shelves for Vinoteca 60 (2 shelves for Bordeaux bottles - 1 shelf for Magnum bottles) / 2 sliding shelves for Vinoteca 45 (for Bordeaux bottles).

Finishes

Vinoteca is only available in black glass finish.

Assembly precautions

Make sure to leave an air gap of at least 50 mm at the back of the recessed compartment as shown in the drawing.

It is recommended to install the appliance away from heat sources, ovens or appliances generating heat or moisture. After transport, place the appliance in an upright position and wait at least 3 hours before connecting it to the electrical installation. The appliance is supplied with power supply connection cable complete with Schuko plug (length 1.30 m).
